Corkhill Books Publishers, Inc.

Dear friends, constituents and fellow Cherokees,

As many of you, I have started a collection of photographs to capture and record the stories that make up the Cherokee Observer collection by holding a contest to see your photos on Myspace.

The purpose of this collection is to have photos in one place where people can see what the citizens are doing and how we all are like whose names are inscribed for all time on the final Rolls.

Already, one of the photos now in the collection no longer exists in original hard copy, as the original was destroyed in a fire the Cherokee Nation operated a year ago. The collection will also be a place where your family can share their photos with others. The collection will also be a place where you can share your photos with others. The collection will also be a place where you can share your photos with others.

I also am collecting photos of Cherokee citizen who died before the Dawes Rolls were created. If you have photos, portraits and/or biographical data on a Cherokee citizen, please share them with us. We will be happy to publish them on the Cherokee Observer.

My goal is to eventually have a web site for the collection that will be accessible to all of us.

Thank you for your support.

David Cookil
