They are bought & paid for, check their financial reports. It really tells the story.

Profile of a Sociopath

A deep seated rage, which is split off and repressed, is at their core. Does not see others around them as people, but only as targets and opportunities. Instead of friends, they have victims and accomplices who end up as victims. The end always justifies the means and they let nothing stand in their way.
• Shallow Emotions
When they show what seems to be warmth, joy, love and compassion it is more feigned than experienced and serves an ulterior motive. Outraged by insignificant matters, yet remaining unmoved and cold by what would upset a normal person. Since they are not genuine, neither are their promises.
• Incapacity for Love
• Need for Stimulation
Living on the edge. Verbal outbursts and physical punishments are normal.

Promiscuity and gambling are common.
• Callousness/Lack of Empathy
Unable to empathize with the pain of their victims, having only contempt for others' feelings of distress and readily taking advantage of them.
• Poor Behavioral Controls/Impulsive Nature
Rage and abuse, alternating with small expressions of love and approval produce an addictive cycle for abuser and abused, as well as creating hopelessness in the victim. Believe they are all-powerful, all-knowing, entitled to every wish, no sense of personal boundaries, no concern for their impact on others.
• Early Behavior Problems/Juvenile Delinquency

Usually has a history of behavioral and academic difficulties, yet "gets by" by conning others. Problems in making and keeping friends; aberrant behaviors such as cruelty to people or animals, stealing, etc.
• Irresponsibility/Unreliability
Not concerned about wrecking others' lives and dreams. Oblivious or indifferent to the devastation they cause. Does not accept blame themselves, but blames others, even for acts they obviously committed.
• Promiscuous Sexual Behavior/Infidelity
Promiscuity, child sexual abuse, rape and sexual acting out of all sorts.
• Lack of Realistic Life Plan/Parasitic Lifestyle
Tends to move around a lot or makes all encompassing promises for the future, poor work ethic but exploits others effectively.
• Criminal or Entrepreneurial Versatility
Changes their image as needed to avoid prosecution. Changes life story readily.

tolerated, condoned, or admired
7. Conventional appearance
8. Goal of enslavement of their victim(s)
9. Exercises despotic control over every aspect of the victim's life
10. Has an emotional need to justify their crimes and therefore needs their victim's affirmation (respect, gratitude and love)
11. Ultimate goal is the creation of a willing victim
12. Incapable of real human attachment to another
13. Unable to feel remorse or guilt
14. Extreme narcissism and grandiose
15. May state readily that their goal is to rule the world
(The above traits are based on the psychopathy checklists of H. Cleckley and R. Hare.)

NOTE: In the 1830's this disorder was called "moral insanity." By 1900 it was changed to "psychopathic personality." More recently it has been termed "antisocial personality disorder" in the DSM-III and DSM-IV. Some critics have complained that, in the attempt to rely only on 'objective' criteria, the DSM has broadened the concept to include too many individuals. The APD category includes people who commit illegal, immoral or self-serving acts for a variety of reasons and are not necessarily psychopaths.

Other Related Qualities:
1. Contemptuous of those who seek to understand them
2. Does not perceive that anything is wrong with them
3. Authoritarian
4. Secretive
5. Paranoid
6. Only rarely in difficulty with the law, but seeks out situations where their tyrannical behavior will be
