THE EASY WAY

The first step in learning to read and write Cherokee is to learn the Cherokee Syllabary. Sequoyah taught it using the sight and sound method, we have found that to be the best method also. We suggest you learn one line at a time. Say and write each symbol of the line seven times. Repeat until each line is learned then move on to the next. But, always review the previous lines. After you learn the Syllabary, Cherokee words and short phrases will be easier to learn. Although we strongly urge you to use all available Cherokee language resources, We recommend you to avoid using English phonetics. Learning the sound of the symbol by sight eliminates the dependency on an unnecessary learning step which some new methods use.

This is the first line in the Cherokee syllabary. Read the symbols from the left to the right.

We will print one word or a short sentence in the Cherokee Syllabary each issue.
Look at the written symbols on the lines above and then trace the following dotted lines to learn the Shape of each symbol.
Then say the Sounds of the Symbols each time you write them. (Look at the syllabary to find the sounds for each symbol).
Then do it on your own. You will now know the Sounds and the Shapes of each of the Symbols for each line.
